

NEW WITH MFG WARRANTY

Qty (1) GE SPRINT LM6000PD 50 Hz Gas Turbine Genset

Available for Immediate Shipment From Storage in U.S.A.

- Natural Gas Fuel
- 46 MW (approx.)
- SPRINT (Spray Inlet Cooling) Power Boost System
- Air Cooled Generator, 2 pole @ 63,500 KVA, 0.80 pf, 11,500 volts, 50 Hz
- Weatherproof Acoustic Enclosure w/Sound Attenuation
- Electronically controlled fuel metering valve
- Electronic motor driven hydraulic pump assembly, filters, cooler and controls, mounted on the auxiliary equipment module

- Control system features an integrated electronic fuel management system with a PLC based programmable sequencer, vibration monitor, digital meter, digital generator, protective relay module

- Factory installed complete fire protection system
- Free standing control panel suitable for mounting indoors
- (DLE) Dry Low Emissions System
- Inlet Air Chilling Coil
- Winterization
- DC Enclosure Lighting
- Nickel Cadmium Batteries
- Remote Work Station
- Unit is complete with all accessories for 50 Hz

Power kW	Heat Rate		No. Shafts	Pressure Ratio	Shaft Speed rpm	Exhaust Flow		Exhaust Temp.	
	Btu/kWh LHV	kJ/kWh LHV				lb/s	kg/s	° F	° C
46902	8272	8739	2	30.9	3627	292	133	834	446

Performance based on 59° F amb. Temp. 60% RH, sea level, no inlet/exhaust losses on gas fuel without NOx media
